The affidavits are made by W. L. Grady, A. J. Wofford and H. P. Johnson, and charge that prior to the trial they heard both the jurors Remshaw and Neal say that they were convinced that Howard was guilty, and if accepted as jurors they would vote to hang him.

## SENT OUR REGRETS

Secretary Hay Now Believes We Were Deceived.

Latest About Chinese Meddle Seems to Verify Contention That Demands Were Pure Inventions

## MINISTER CONGER GOT MIXED

Washington, May 2.—Secretary of State Hay has sent to the Russian ambassador, for transmission to St. Petersburg, a note in which he expresses regret that the United States should have been led into even a temporary misconception or doubt as to Russia's position in Manchuria.

Mr. Conger, our minister at Pekin, called the alleged Russian demands on China to the state department. The Japanese seem to have got a "leet" on the other diplomats at Pekin, but peddled it around as a thing too good to keep. Mr. Conger, when asked if he was sure of his facts, is said to have admitted that he obtained them first from the Japanese, and claims to have verified them by personal investigation. Trusting Mr. Conger, whose remarkable misreading of a cypher dispatch at the time all the powers were about to sign their agreement at Pekin in 1901, might have been remembered with profit, Secretary Hay sent a cablegram to Pekin urging the Chinese government not to sign the alleged Chinese agreement and an inquiry to St. Petersburg was accepted by the Russian government as a virtual declaration on the part of the United States that it believed the information that had been sent from Pekin.

## INSURANCE TRUST.

THREE LARGE NEW YORK COMPANIES UNITE TO STOP RATE CUTTING.

New York, May 2.—Instructions have been sent out to agents of three big life insurance companies, which indicate that the companies are to form a combination. The companies are the Mutual Life of New York, the New York Life and the Equitable. The instructions say: "We have decided, after giving the matter very careful consideration, that it is for the best interest of the life insurance business generally to cease the publication and circulation of comparative and competitive literature."

Special reference is made in each circular to the other companies. The instructions continue, that not later than June 1 all competitive and comparative material in the possession of the agents must be destroyed and they must not encourage or aid any hostile criticism under penalty of dismissal. In addition to stopping hostile tactics, it is reported that the arrangement means an end of private rate cutting.

## CLEVELAND A POSSIBILITY.

ENTHUSIASTIC RECEPTION TENDERED REVIVES TALK OF THIS NATURE.

Washington, May 2.—The enthusiastic reception given ex-President Cleveland in St. Louis has revived talk in Washington of the possibility of his nomination by the Democrats in 1904. The report reaches here that the sentiment in the south is steadily growing in favor of his election. Though it is a long time before the Democratic convention meets, the talk of Cleveland and the enthusiasm manifested on his western trip has made a considerable impression.

## WEEK'S NEWS IN THE BUSINESS WORLD

Clearings this week \$658,240  
Same week last year 689,278  
Decrease 35,038  
Clearings this week show a slight falling off from the same week last year. Business with the banks however has been very active. This week in last year was an exceptional one, and for that reason the clearings this year show the decrease noted.  
Wholesale trade in all lines is very good with the outlook for a continuance of good business. The season is still backward, the continued cold weather hurting some, but general re-

ports are good. The booking of orders for fall shipments were never as heavy as they have been with Paducah drummers the past few weeks and this is an indication that every one expects a big trade this winter.

Manufacturers report splendid booking of orders and factories running full time with the best prospects for the future.

Retail trade is good. Especially is this so in the furniture line. Local dealers report the past week as the biggest in their history.

Real estate is fairly active with a number of trades being made.

## RUSSIANS SURPRISED

At the Protests That Came From the American People.

Rumored That Russia Will Yet Attempt to Carry Out Her Program.

St. Petersburg, May 2.—Russia's backdown in Manchuria is complete, although the controlling spirits in the government are still determined, unless confronted with actual war, finally to consummate the annexation of the province. It must be admitted, however, that these statesmen, for the first time are thoroughly discouraged by the outlook. Their latest maneuver elicited a far more dangerous outcry than they anticipated from the three great interested—Japan, England and the United States. Just now the czar's advisers do not see how the opposition to their plans can be made less formidable in the future.

The attitude of the United States, and particularly of the American people, caused an especial shock here.

The foreign office expected a platoned damper from Washington, but had no idea that the press and the people of the United States would be thrown into a state of anger that might impel the government to use force to keep the door open to American trade in Manchuria.

Of course the czar's advisers saw that forcible measures on the part of the United States would inevitably lead to similar measures on the part of Japan and Great Britain. Consequently the bold position taken up at Pekin became untenable. It is even feared that it may prove a boomerang of the worst sort, as China stimulated by the allied anti-Russian interests, is likely to offer an effective check to Russian encroachments along the whole length of the northern frontier.

Russian jingoism assails M. Witte, minister of finance, on the ground that his hostile sugar policy accounts for America's unfriendliness toward Russia's policy in the Far East. While the contention is absurd, it is highly probable that henceforth one of the main purposes of St. Petersburg diplo-

## Y. M. C. A. NEWS

Formal Opening of Recreation Ground Next Week.

The Physical Culture Class Will Have Its First Meeting Monday Evening.

Wednesday afternoon the formal opening of the tennis, roque and recreation grounds of the Y. M. C. A. located near Seventh and Court streets, will take place and this will be a gala day for the young people.

The ladies' committee has charge of the opening of the grounds and will serve refreshments. There will be match games in both tennis and roque by the best players in the city and an interesting time is assured. The hours are from 4 to 7 and no doubt the grounds will be packed.

The courts are the finest in the state and the management feels justly proud of the fact. Laborers have been at work on the courts for several weeks and not a flaw can be found.

Miss Jennette Campbell has charge of the proposed show to be given by the association soon. She is now forming plans and will make announcements later. This will be one of the best amateur performances ever given in the city.

The class in physical culture will begin Monday at 7 o'clock and will be drilled for half an hour. This is the same course taught by Prof. Adams who was here last month, and all members of the association can be members of the class at their will.

The ladies' committee will meet this afternoon at 4 o'clock at the association to formulate plans for the show and other matters pertaining to the association.

## MEN AND HORSES BURNED.

New York, May 2.—Two negro stable laborers and thirty valuable horses were burned to death last night on Long Island.

Many will be to get on such terms with the United States as will moderate that country's opposition to Russia in China.

## QUICK FIRING GUNS

Large Quantities of Ammunition Being Shipped by Russia.

Balkan Trochles Are Increasing and Russia Is Preparing for War.

## OSAR FITS OUT A SQUADRON

London, May 2.—The Mail's correspondent at Moscow sends the following information by mail, in order to escape the censor:

"I am privately informed from Odessa that the six volunteer fleet cruisers now in that port are shipping quick-firing ordnance and mountain guns, as well as large quantities of ammunition for those weapons. All the officers and men of the fleet on furlough have been recalled."

"The Odessa garrison, consisting of 31,000 troops, is held upon a complete war footing."

The fact that mountain guns are being shipped leads to the belief that the movement is in connection with the Balkan troubles.

## STATE OF SIEGE.

Constantinople, May 2.—A state of siege has been proclaimed at Salonica, and extraordinary military precautions have been ordered everywhere in the empire, as it is anticipated that outrages similar to those perpetrated here yesterday, may be attempted at Constantinople and elsewhere. The action of the Macedonian committee in directing attacks on foreign property was evidently with the view of provoking the intervention of the powers. It is feared the outrages may lead to massacres of Macedonians and Bulgarians by Musulmen, who are in a state of dangerous excitement.

## OSAR ASKS FOR MERCY.

Constantinople, May 2.—The czar has requested that the sentence of death passed upon Ibrahim, the Albanian sentinel who recently assassinated M. Stehrpina, the Russian consul, be commuted to penal servitude for life.

## TEN PER CENT

INCREASE GRANTED N. O. & ST. RAILWAY EMPLOYEES.

Nashville, Tenn., May 2.—Track, train and locomotive employees of the Nashville, Chattanooga & St. Louis railway were yesterday voluntarily given an advance in wages which amounted to a general increase of about 10 per cent in the pay of all the road men, slightly less in the pay of trainmen and an adjustment in the case of the engineers which will mean much more than that amount to some of them, while others, who were already drawing proportionately more than their fellows, will remain under the old schedule. The advance took effect April 1 and was only known when the men received their pay yesterday.

## TRIAL ON ITS MERITS.

Jackson, Tenn., May 2.—In the federal court the demurrer of the city of Lexington to \$2,280 interest to St. Louis railroad bonds was overruled and the corporation of Lexington will have to go to trial on the merits of the case. At the time the road was built lending citizens subscribed \$20,000 of stock, with the understanding that when the legislature met the city would vote to issue bonds to cover the amount. This was done, and the bonds floated, but an effort has been made for the city to be relieved of the payment of the interest and bonds. This led to the suit.

## TENTH DEATH AT

## PEWEE VALLEY.

Pewee Valley, Ky., May 2.—The tenth death at the Confederate Home occurred yesterday, when Veteran W. H. Hnbs passed away. His death was due to consumption. He was 72 years of age. ## RAINS CHECKING FOREST FIRES

## FORESTS FIRES IN CANADA.

Montreal, Que., May 2.—Extensive forest fires are raging about 50 miles north of here, between the towns of St. Jovite and Labelle. The village of Morrison, containing a mill and about a dozen farm houses, was entirely destroyed and the flames were so severe on both sides of the Canadian Pacific railroad track that people could not stand on the platform as the train rushed through. The people are leaving their animals and possessions a prey to the flames.

## RAINS CHECK IT.

Oil City, May 2.—The heavy rains have checked the forest fires which have been raging in Venango, Forest and Warren counties, but not before vast tracts of valuable timber had been destroyed, crops ruined and a number of dwelling houses consumed.

At Kuzna two big saw mills were burned and scores of derricks and small tanks filled with oil were looked up. The total loss in the district between Tionesta and Warren alone is estimated at \$200,000.

Concord, Pa., May 2.—Edward Hill, who has been living in the county near this city, was found this morning burned to death, being surrounded while saving his property. The loss in property in this neighborhood is thus far over one million dollars.

## SNOW'S GOOD WORK.

Plattsburg, N. Y., May 2.—A heavy snow storm set in over the Adirondacks yesterday, practically checking the fierce forest fires that have spread rapidly in the last week. The temperature dropped about 50 degrees.

## TO STUDY AGRICULTURE.

GERMANS COMING OVER TO INSPECT FARMING AND STOCK RAISING.

New York, May 2.—Forty-six German agriculturists will arrive in New York today. They will cross the continent and make a trip of 10,000 miles to study methods of farming and stock raising. Among them will be feudal land barons, scientists in the government service and students of agriculture. J. L. Schmitz, of the United States department of agriculture, is here to meet the visitors, and two special cars are ready to take them on their long tour. They will travel by a southern route to California, up the Pacific coast and return to the Atlantic through the northern tier of states.

The trip has been arranged to enable the visitors to inspect the great wheat regions of the west, the orchards of the north, the stock farms of the south and west and the packinghouses of Kansas City and Chicago. The tour will occupy nearly two months.

## RUSSIAN EXILE

ESCAPES FROM SERVITUDE AND STOWS AWAY ON A JAPANESE LINER.

Honolulu, May 2.—The Japanese liner Nippon Maru, which arrived from the Orient yesterday had among her passengers a Russian exile, named Ivan Von Boninski, recently escaped from Saghalin Island. He boarded the vessel at Yokohama as a stowaway. When discovered he said he was the son of a wealthy resident of St. Petersburg. While a student at a military college he was convicted of rioting and with a number of others was sent to Saghalin Island. Here two of them died before Von Boninski with another student made his escape. On hearing his story the passengers on the Nippon Maru purchased a first class passage for him to this port. He will join the Russian colony near Hilo.

### SPRING AILMENTS.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is that during winter there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect fully restore the wasted tissues and give strength in place of weakness. 50c at DuBois, Kolb & Co.

Boxing Bout at the Kentucky  
Last Night Interesting.

Draw Fought by Randall and "Alabama Kid"—Matthews and Heller Also.

The boxing bouts at The Kentucky last night were more than interesting and kept the sports shouting for several hours. The bouts were given by Messrs. Lee Hood and Frank Johnson, treasurer and stage manager at The Kentucky, as a benefit, and both were well rewarded with a large attendance and have cleared quite a neat little sum.

The first bout was between Walter Shannon and Fred Blanks, colored, and was won by Shannon. This was a five round bout. Zack Bryant acted as time keeper and Will Dicke referee.

The next bout was between Lon Heller, of Cincinnati, and Kid Matthews, of St. Louis, both white professionals. This was a draw. Will Dicke refereed.

The next bout was the star bout of the evening. The principals were "Alabama Kid" and Harley Randall, colored, semi-professionals. The first three rounds were strong but towards the last the two became afraid of each other and tamed the fight. At the close of the tenth round the fight was declared a draw by Lon Heller who refereed.

Alabama Kid defeated Randall in the Jeffries-Fitzsimmons preliminary fight here and both were pretty anxious to win, the former to sustain his reputation and the latter to regain what he had lost.

I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." ### POPULISTS EMIGRATE TO MEXICO.

Fort Worth, Tex., May 2—The removal of 400 Greer county, Okla., people to Mexico, was brought about because of the fact that Greer county has become Democratic and the colonists are Populists and desire to settle where they will be under their own domination.

The first installment of them, 130, has already left via Fort Worth and Houston. The colonists will settle thirty miles east of Essendon, in the state of Tamaulipas, and have bought 250,000 acres of land. They will engage in farming and cattle business. The families of the colonists will move to Mexico later.

That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humor remedies of the civilized world.

## GEN. MILES STIRS UP A ROW.

HIS ENEMIES CLAIM THAT HE  
HOPE TO SECURE PRES-  
IDENTIAL NOMINATION.

New Orleans, May 2—A Washington telegram to the Picayune says: General Miles is now charged by his enemies in the war department with being a candidate for the Democratic presidential nomination. This alleged ambition is given by them as the cause of his report on atrocities in the Philippines, which was reluctantly made public by Secretary Root yesterday, after a delay of two months.

Some of his enemies go so far as to express the belief that influences back of General Miles will be strong enough to secure his nomination by the Democrats and the adoption of "anti-imperialism" as their battle cry. It is asserted that prominent Republican anti-imperialists have been working to this end for more than a year, and that by the time the Democratic national convention is held they expect to be able to give assurances of sufficient support to bring about General Miles' nomination.

### CLEVELAND TO HASTEN HOME.

EXPECTED CALL OF THE STORK  
AT EX-PRESIDENT'S HOME  
WILL OUT SHORT  
WESTERN TRIP.

Princeton, N. J., May 2—Ex-President Grover Cleveland, who went to St. Louis, will not delay his return to Princeton. The stork is expected to pay another visit to the Cleveland home very soon, and Mr. Cleveland must out short his western trip. Later, however, he plans to go on a long cruise with E. C. Benedict, who says his yacht will sail in New England waters all summer. Mr. Cleveland is to have an opportunity for good fishing and, perhaps, some duck shooting. The Cleveland family may spend the summer at Buzzard's Bay.

Neither Cleveland nor Hill is available presidential timber, according to Representative A. S. Burleson, of Texas. Gorman and Parker are both well liked, he says, because they are "regular" Democrats.

## Irregularities

CHICAGO, ILL., 5902 Indiana Avenue, Sept. 23, 1902.

Wine of Cardui is superior to anything I have ever tried for irregularities. Three years ago I noticed that I became irregular but I paid little attention to it. Gradually the trouble became serious and affected my general health. The flow became scanty and very painful and I sought the doctor's aid. I soon found, however, that his prescriptions did not have the desired effect and when a friend recommended Wine of Cardui I decided to try it and procured a bottle. It helped me at once and I felt greatly encouraged when I noticed the change for the better. At my next menstrual period the pain was less and the flow better and within four months I was perfectly well, regular and without pain.

This is over a year ago and I have not suffered any pains or trouble since. Accept my sincere thanks for your efficient remedy.

*Miss Adelaide Adams*

Because Wine of Cardui cures women so simply, so quickly and so effectively it is the favorite medicine of women today. This medicine brings women health and freedom from sickness by the most simple process—Nature's own way.

While physicians examine and operate, Wine of Cardui works a cure without the humiliating publicity of an operation or the danger of the use of a knife.

Wine of Cardui strikes at the root of female trouble. It regulates the menstrual flow, making the function regular and healthy, an aid to health instead of a menace. A profuse flow weakens the blood and suppresses poisons. Wine of Cardui, by regulating the flow, gives life and strength to all the generative organs. Bearing down pains disappear and ovarian pains and weakness give way to health.

If you are suffering female weakness you should look after your case at once. All the organs are in sympathy and you cannot tell what a simple case of irregularity will run into if you let it alone.

Go to your druggist today and a cure a \$1.00 bottle of Wine of Cardui. Take it in your home, in private, and you will thank Miss Adams for her advice.

For advice in cases requiring special directions, address, giving symptoms, The Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tennessee.

## The Week In Society.

### HER ANSWER.

"Dear Nell," he wrote, "these violets I've made so bold to send to you shall be my mute ambassadors And each shall tell how deep and true The sender's love is, craving yours For him. What messengers more meet? Are they not typical of you. They are so sweet?"

"Dear Jack," she wrote, "your violets have just this moment been received. Their message took me by surprise. 'Twas something scarce to be believed— I send my answer back with them. What fitter messengers for you? So typical of how you'll feel— They are so blue!"

—Catholic Standard.

### APROPOS OF SOCIETY.

There has been more private entertaining done this week than Paducah society has known in some time. All of the parties have been exceptionally pleasant affairs, and rather extensive ones although claimed as "very informal." Several pleasant guests of popular people have been the cause of the revival of gaiety, and society has not been at all averse to doing them especial honor. Perhaps the coolness of the weather, too, has helped to energize society somewhat and to keep things moving notwithstanding the attractions in St. Louis which have drawn many out of the city.

Perhaps next week may be very gay, and perhaps it may be the last before the carnival storm, there is little to forecast the social barometer as yet.

## A GREAT THING

The Carnival Attractions Will  
Make Everybody Glad.

Thousands Will Feel Glad They Are  
Alive.

The greatest panacea on earth for the blues, melancholia or the other kindred troubles of life is the great Ferrar Bros. Mighty Midway Carnival, which is to be here as the amusement feature of the coming carnival in this city. It is the cure-all for dull hours and the greatest business maker on earth today. The man who feels in the dumps wants a whirl on the midway to convince him that life is worth living after all. When he has had it he is practically a new man. There is so much to see and enjoy with the great aggregation that sorrow takes to the tall timber and gloom "goes away back and sits down," out of an occupation. Among the many features of the colossal aggregation of shows are the magnificent trained wild animal shows which was the feature of the Pan-American and Charleston expositions, the great "Cave of the Winds," the wonderful Olagueles, the first of their native race to leave their native Ceylon; the beautiful Orient, with its camels, elephants, donkeys and people of the Far East; the German village, brimful of fun and frolic; the \$50,000 golden chariot; the mammoth Ferris Wheel; the world-famous dog and monkey circus; Wild Minnie, from far-away Australia, the first of this kind ever placed upon exhibition and the last of an extinguished race; Esau, the wonderful man-up, the most startling exponent of the Darwinian theory ever seen by mortal man; the finest selection of free acts ever seen with an aggregation of this character, including Speedy, the champion high diver of the world. He is rightfully named, death-defying, daredevil Speedy. The wonderful Ricardo Bros., so long and favorably known with the Barium and Bailey circuits, the greatest show on earth; Coopers' Cycle Sensation, and Van Norman's Spiral Association. There are hosts of other attractions too numerous to mention. If you want to be happy and contented and have one week of fun, mirth and merriment, commencing May 11 and ending May 16, come to the Paducah Free Carnival.

Mementoes of Sunflower State. Fourth Assistant Postmaster General Britton is from Kansas, and the fact was evident during the recent Grand Army encampment in Washington. Friends from the sunflower state brought him splendid specimens of corn, apples, pears and potatoes—all the leading agricultural products of Kansas—and these were hung or strung artistically about his room in the postoffice department.

### A GREAT MAY SALE OF

**DRESS GOODS AND SILKS.**  
This is a sale of high grade, worthy dress goods that will give satisfaction in both appearance and wear. No woman with either an inclination or necessity toward economy should miss such values as are now offered in this sale. You are invited to inspect the stock.

At \$1 a yard 300 yards of an exceptional black taffeta silk 36 inches wide has been secured for this sale and is a silk bargain worthy of consideration if you have a taffeta silk want to be supplied.

### A GREAT MAY

**SALE OF PARASOLS AND UMBRELLAS, AND WAISTLETS.**  
**A GREAT MAY SALE OF LADIES' SHIRTTWAISTS.**

Charming, dainty, dressier styles than ever before. Until you have seen them you can have no just conception of their beauty at their respective May sale prices, which range from 60c up to \$10 each. The styles at \$1.50, \$2, \$2.25, \$2.65, \$2.95 and \$3.50 are gems of beauty. Don't fail to inspect the stock whether you wish to buy or not.

### A GREAT MAY SALE OF

**READY-TO-WEAR SKIRTS.**  
The newest styles of the season. Some are the plain tailor-made styles with tailored straps and elaborately stitched; others are in dressier styles. All are tailored most beautifully, hang well and gracefully and at our prices offer bargains not to be matched anywhere else in Paducah. This great assortment of skirts has splendid dressy values ranging from \$5 up to \$11.55 for skirts made of pen de sole silk.

## DURING MAY

If you are a wearer of men's \$3 or \$3.50 shoes clip out the above announcement. One clipping will be received as 50 cents cash on the purchase price of each pair of any style of our men's advertised \$3 and \$3.50 shoes that you may buy from us at any time during May. It will cost you nothing to clip out the above and come and see.

**WOMEN'S, MISSES' AND CHILDREN'S SHOES AND SLIPPERS.**

A great stock, all-priced special for the May sale.

### A GREAT MAY SALE

**OF MATTINGS, CARPETS, LACE CURTAINS AND WINDOW SHADES.**

**MEN'S CLOTHING.**

We believe veritably that \$10 more will give you choice of a variety of men's suits that would cost you \$15 each elsewhere. The style, fit and workmanship is the best. These suits are made of high grade materials, well lined, sewed together with the best silk thread and made by skilled union labor. Our low prices are made possible only because of our extremely close method of cash buying from first class cash houses and then pricing low by us to induce cash buying and thereby enable us to make rapid turn-overs of the cash employed in handling our clothing stock. Anybody will understand that by turning over money two or three times where other houses turn it only once that we can afford to make much lower prices.

We ask you to come and look—then buy from us when you get ready. We are good people to make the acquaintance of. We are now making a great May sale of the average \$15 and \$18 suits of exclusive clothing houses. Our May sale price is only \$10 a suit. Just come and see and compare and you will do the rest.

## THE WEEK IN SOCIETY.

(Continued From Third Page)

### Brillway.

Mrs. W. P. Ross of Madisonville, Ky., is the guest of Miss Anna May Yelver this week.

Mr. and Mrs. Rabb Noble are expected home the first of the week from the trip to California.

Mrs. Leslie Samuels of Bardstown, Ky., is visiting her parents, Mr. and Mrs. Richard G. Terrell.

Miss Catharine Baird of Nashville is the guest of her sister, Mrs. Luke Russell. Miss Baird is very popular in the younger society circle.

Mr. and Mrs. Peter Puryear arrived home this week from their Eastern bridal trip. They are at Mr. W. F. Paxton's, West Jefferson street.

Miss Helen Lowry left this week for Edwille to visit. She will go to Louisville later, and after leaving there will spend the summer in Shelbyville.

Mrs. Franklin Leavitt and little sons, David and Maurice, returned to St. Louis this week after a visit to Mrs. Leavitt's parents, Mr. and Mrs. M. B. Nash of North Ninth street.

Mrs. Carl Scholz returned to her home in Little Rock this week after a pleasant visit to Mrs. I. D. Wilcox. Mrs. Scholz was guest of honor at several pretty entertainments while here.

Mrs. Percy Paxton is the guest of Miss Florence Mulholland of St. Louis. She went to attend the dedication ceremonies and World's Fair festivities, and will remain several weeks. She will also visit friends at Enreka Springs before returning home.

Mrs. Will J. Jones and little daughter Elizabeth of Chicago are the guests of Mrs. Jones' mother, Mrs. Mary Rabb, at the home of Mrs. David Sanders on West Jefferson street. Mrs. Jones was formerly Miss Louise Rabb of this city and has a host of friends here.

Mrs. John P. Campbell will leave Tuesday for Mobile, Ala., where she will visit friends. She will probably attend the Confederate reunion at New Orleans while away. Mrs. Campbell's father, Capt. Gns Fowler, was a brave officer in the Confederate army, and she is an interested member of the local U. D. C. chapter.

Mr. Edward Brighurst and Mr. Edward Scott went to Clarksville, Tenn., this week to attend the marriage of Miss Clara Brighurst of that city to Mr. William Borton of Louisville on Wednesday. It was a pretty church and evening wedding. Mr. Brighurst, who is a brother of the bride, gave her away. Mr. and Mrs. Borton will arrive here about the 8th for a week's visit and will be the guests of Miss Julia Scott of Madison street.

### RUSSO-CHINESE CRISIS PASSED.

Washington, May 2.—State officials profess to believe the Russo-Chinese crisis is over. The dispatch from Ambassador McCormick containing the official utterance of Russia denying that any demand had been made upon China looking to the changing of the status of Manchuria, was followed today by a long conference at the department between Secretary Hay and Count Cassini, the Russian ambassador.

After the conference it was stated that the whole situation had been gone over frankly and fully, and that the discussion was altogether amicable and satisfactory on both sides.

While the official view is that the crisis has been passed, it is believed to have passed for the moment only. The movement of Russia in Manchuria will be closely watched, for, as the time approaches for Russia to comply with its treaty pledges and withdraw its troops, it is believed that a situation more acute than that which just passed will arise. Then Russia will be called upon to make a final play, and upon her game at that time will the future of China, in large measure, depend.

The will of Thomas F. Lane, who committed suicide two years ago, has been filed in Washington. Attorneys for Senator Blackburn have protested against its being admitted to probate and have raised the question of Lane's sanity. The case probably will not be tried before next fall.

Wages of engineers and firemen on the Delaware and Hudson railroad have been substantially increased.

## THE MAN WHO BUILT THE OREGON.

The death of Irving M. Scott, "the man who built the Oregon," removes from earthly activity one of those captains of industry whose achievements are so closely linked with our marvelous industrial development as to give his name an honored place in the annals of our national progress.

Mr. Scott built the Oregon, "the hull dog of the navy," whose famous trip around the Horn was one of the thrilling chapters in the history of the Spanish-American war. To have built the Oregon was a feat in itself for one man, but this was only an incident in the busy career of a man who founded and organized a great industry. He built other battle ships for our own and other navies. But Mr. Scott was something more than a builder of merchant vessels and battle ships. He was the generous patron of art and education, a contributor to philanthropic enterprises, and was actively and honorably identified with the political activities of his state. He was a splendid type of that sturdy school of self-made American who created wealth out of mechanical genius and ability for organization.

The death of this man, who did things, is a reminder of the near approach of that happy time when we shall gratefully place upon the highest pedestals, along with the poets and soldiers, the figures of men who organized mammoth industries, who revolutionized processes of production; when we shall panegyrize the deers as well as the dreamers, the builders as well as the heroes of military conquest.

The time is coming, no doubt, with the beating of swords into plowshares, when we will build monuments to the great organizers of industry.—Chicago Record Herald.

### FOR THOSE WHO LIVE ON FARMS.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. It is a dandy for burns." Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency. 25c, 50c and \$1 at DuBois, Kohl & Co.'s.

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and  
 Happening in the Reign of His Ancestral Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin  
 Caskoden's Memoir  
**By EDWIN CASKODEN [CHARLES MAJOR]**  
 Copyright, 1893 and 1901, by the Dwyer-Merrill Company

How eloquent she was! It seemed to  
 me this would have melted the frozen  
 sea, but I think Brandon felt that now  
 his only hope lay in the safeguard of  
 his constantly upheld indignation.

When he spoke he ignored all she had  
 said.

"You did well to employ my Lord of  
 Buckingham. It will make matters  
 more interesting when I tell you it was  
 he who attacked you and was caught  
 by the leg under his wounded horse; he  
 was lame, I am told, for some time af-  
 terward. I had watched him following  
 you from the gate at Bridewell and at  
 once recognized him when his mask  
 fell off during the fight by the wall.  
 You have done well at every step, I  
 see."

"Oh, God, to think of it! Had I but  
 known! Buckingham shall pay for this  
 with his head; but how could I know?  
 I was but a poor, distracted girl, sure  
 to make some fatal error. I was in  
 such agony—your wounds—believe me,  
 I suffered more from them than you  
 could. Every pain you felt was a pang  
 for me—and then that awful marriage!  
 I was being sold like a wretched slave  
 to that old satyr, to be gloated over  
 and feasted upon. No man can know  
 the horror of that thought to a woman  
 —to my woman, good or bad. To have  
 one's beauty turn to curse her and  
 make her desirable only—only as well  
 fed cattle are prized. No matter how  
 great the manifestation of such so  
 called love, it all the more repels a  
 woman and adds to her loathing day  
 by day. Then there was something  
 worse than all—that she was almost weep-  
 ing now—"I might have been able to  
 bear the thought even of that hideous  
 marriage—others have lived through  
 the like—but—after—that—that day—  
 when you—it seemed that your  
 touch was a spark dropped into a heart  
 full of tinder, which had been lying  
 there awaiting it all these years. In  
 that one moment the flame grew so in-  
 tense I could not withstand it. My  
 throat ached; I could scarcely breathe,  
 and it seemed that my heart would  
 burst." Here the tears gushed forth  
 and she took a step toward him with  
 outstretched arms and said between sobs:  
 "I wanted you, you, for my husband—  
 for my husband, and I could not bear  
 the torturing thought of losing you or  
 enduring any other man. I could not  
 give you up after that—it was all too  
 late, too late; it had gone too far. I  
 was lost, lost!"

He sprang to where she stood lean-  
 ing toward him and caught her to his  
 breast.

She held him from her while she  
 said: "Now you know—now you know  
 that I would not have left you in that  
 terrible place had I known it. No, not  
 if it had taken my life to buy your  
 freedom."

"I do know; I do know. Be sure of  
 that. I know it and shall know it al-  
 ways, whatever happens; nothing can  
 change me. I will never doubt you  
 again. It may turn to a life of forgive-  
 ness now."

"No, no. Just forgive me. That is all  
 I ask." And her head was on his breast.  
 "Let me go now into the passageway,  
 Edwin," she said, and she did. There  
 were times when Jane seemed to be in-  
 spired.

When they went back into the room,  
 Mary and Brandon were sitting in the  
 window-way on his great cloud. They  
 rose and came to him, holding each other's  
 hands, and Mary asked, looking up to  
 him:

"Shall we tell them?"

"As you like, my lady."

Mary was willing, and looked for  
 Brandon to speak, so he said, "This  
 lady whom I loved by the hand and my-  
 self have promised each other before  
 the good God to be husband and wife  
 if fortune ever so favor us that it be  
 possible."

"No; that is not it," interrupted Mary.  
 "There is no 'if' in it. It shall be  
 whether it is possible or not. Nothing  
 shall prevent." At this she kissed Jane  
 and told her how she loved her, and  
 gave her her hand, for her love was so  
 great within her that it overflowed  
 upon every one. She, however, always  
 had a plenitude of love for Jane, and  
 though she might seem to be appar-  
 ently in love with her, Jane was as dear  
 as a sister and was always sure of her  
 affection, tried and lasting affection.

After Mary had said there should be  
 no "if" Brandon replied:

"Very well, Mame. Destiny." Then,  
 turning to her, "What ought I to do for  
 one who is willing to stoop from so  
 high an estate to honor me and be my  
 wife?"

"Love her and her alone with your  
 whole heart as long as you live. That  
 is all she wants, I am sure," volun-  
 teered Jane sentimentally.

"Jane, you are a Mame, Solomon,"  
 said Mary, with a tone of her old time  
 laugh. "Is the course you advise as you  
 would wish to be done by?" And she  
 glanced mischievously from Jane to her  
 as the laugh bubbled up from her heart,  
 merry and soft, as if it had not come  
 from what was but now the home of  
 grief and pain.

"I know nothing about how I should  
 like to be done by," said Jane, with a  
 pout, "but if you have such respect for  
 my wisdom I will offer a little more. I  
 think it time we should be going."

By this time Mary's eyes were red, and  
 her face was like the blackest  
 stormcloud.

"Carry this to the king: That I will  
 see him and the whole kingdom sunk  
 in hell before I will marry Louis of  
 France. That is my answer once and  
 for all. Good even, Master Wolsey."

And she swept out of the room with  
 head up and dilating nostrils, the very  
 picture of defiance.

After Wolsey had gone Jane said to  
 Mary: "Don't you think it would have  
 been better had you sent a softer an-  
 swer to your brother? I believe you  
 could reach his heart even now if you  
 were to make the effort. You have not  
 tried in this matter as you did in the  
 others."

"Perhaps you are right, Jane. I will  
 go to Henry."

Mary waited until she knew the king  
 was alone, and then went to him.  
 On entering the room she said:  
 "Brother, I sent a hasty message to you  
 by the bishop of Lincoln this morning,  
 and have come to ask your forgive-  
 ness."

"Ah, little sister, I thought you would  
 change your mind. Now you are a  
 good girl."

"Oh, do not misunderstand me. I  
 asked your forgiveness for the mes-  
 sage. As to the marriage, I came to tell  
 you that it would kill me and that I  
 could not bear it. Oh, brother, you are  
 not a woman. You cannot know." Henry  
 flew into a passion and, with  
 oaths and curses, ordered her to leave  
 him unless she was ready to give her  
 consent. She had but two courses to  
 take, so she left with her heart full of  
 hatred for the most brutal wretch who  
 ever sat upon a throne, and that is  
 making an extreme case. As she was  
 going she turned upon him like a fury  
 and exclaimed:

**FOR BLOOD**  
**AND NERVES**

**Greatest of All Remedies,**  
**PAINE'S CELERY COMPOUND**

Today your friends and neighbors  
 are using woman's friend, Paine's Cel-  
 ery Compound, and are getting rid of  
 their burdens and troubles. If you  
 are observant, you will note that your  
 woman friends are putting on flesh,  
 they are bleated with renewed vigor,  
 elastic step, bright eyes, clear complex-  
 ion, all of which are true indications  
 of a new and better health. Why suffer  
 when you can secure the same bless-  
 ings? Why deny yourself the happi-  
 ness of true womanly life when Paine's  
 Celery Compound is able to make you  
 as healthy and attractive as other wo-  
 men are? Mrs. Gladys Riblett, Peo-  
 ria, Ill., says:

"For more than twelve years I have  
 been a most miserable sufferer from  
 female weaknesses, and our family  
 physician seemed to do me no good. I  
 had great trouble with my lungs, and  
 last year was advised to seek a change  
 of climate or else prepare for death, as  
 I was rapidly contracting consump-  
 tion. I weighed but 83 pounds when  
 six months ago I began the use of  
 Paine's Celery Compound. Now I  
 can see all day, do a hard washing  
 and all my housework, sleep as sweet-  
 ly as a babe, and rise in the morning  
 rested and refreshed. Six bottles of  
 Paine's Celery Compound was all I  
 needed to completely cure me, and in-  
 stead of dying, as predicted, I now  
 weigh 145 pounds, my lungs are all  
 right, and I feel assured of my health  
 and comfort in the future."

We have it in all the new styles and in-

## "Lightness of a 'Dorothy Dodd'"

On the Scales

A great many interesting facts may be discovered with a pair of scales, but it is doubtful if any single fact will be more interesting and valuable to the average woman than the weight of her shoes.

For this tells her the number of ounces that must be lifted thousands of times each day, and a little calculation will show that she lifts tons of shoe leather a day—no small labor in itself.

The "Dorothy Dodd" shoe saves the lifting of more than one and one-half tons every day. A pair of "Dorothy Dodd" shoes are several ounces lighter than ordinary shoes. The feet are just so much more comfortable, and you are so much less tired. Put a pair to the test!

Fish at 23,000 Feet.  
The statistician has been at work again. On the arrival of the United States Fish Commission steamer Albatross, which recently explored the ocean to a depth of 23,000 feet, the man of figures has calculated that the pressure of water is so great at that depth that a fish ten feet in length must support a weight equal to a large building.

Both Cheap and Plentiful.

## THE FRANK DISASTER.

INTELLIGENT MINER GIVES A THRILLING ACCOUNT OF HIS EXPERIENCE.

Frank, N. W. T., May 2—Daniel M. Mackenzie, an intelligent miner, gives a thrilling account of the experience of himself and companions, who were imprisoned in the mine for more than twelve hours by the great landslide, and who eventually escaped by digging through forty feet of rock and debris.

"Three other miners and myself, working a cross cut off from No. 8, mainway," says Mackenzie, "were imprisoned between a chute board and the coal. I went down to the lower entry to see how the water was rising. I found the run quite alarming and figured out that at the rate it was coming up we must expect it to flood the mine today about 4 o'clock. We selected a place near the mouth of the main entry and started to work. We timbered as best we could as we went toward the surface. We had worked changing hands for more than five hours, when, as I was punching with a bar it suddenly went through the debris and a breath of air greeted me. I gave a few more punches and a rock big enough to kill us fell in. When we saw we had reached the surface we were mad with delight."
